

KANISHKA BALAJI BASKAR

Product Designer | User Experience

kanibb@uw.edu | +1 (217) 520-5940 | [linkedin.com/in/kanishkabalaji](https://www.linkedin.com/in/kanishkabalaji) | <https://www.kanishkabalaji.design/>

SUMMARY

Product Designer with experience designing end-to-end experiences for products at 10M+ scale, driving measurable improvements in task efficiency (+25%), engagement (+40%), and task success (+18–25%). Combines strong visual and interaction design craft with a making mindset, using rapid prototyping and AI-augmented workflows to explore ideas, validate decisions, and ship impactful solutions.

WORK EXPERIENCE

Product Designer | Copart (Masters Capstone)

Jan 2026 - Present

- Owned end-to-end redesign of a multi-step vehicle-selling experience, improving task efficiency by 25% and user satisfaction by 20%.
- Synthesized insights from 20+ users to identify friction in onboarding and pricing decisions, reducing drop-offs across key steps.
- Built and tested low- to high-fidelity prototypes, enabling faster iteration and reducing decision-making time for stakeholders.
- Leveraged AI-assisted workflows to speed up research synthesis and ideation cycles, improving iteration velocity.

Junior User Experience Designer | BORN, TechMahindra | Project: Telefónica

Jan 2025 – Sept 2025

- Designed and shipped improvements to service and payment workflows used by 10M+ users, increasing task completion rates by 25%.
- Identified usability gaps through testing and analytics, reducing friction in high-frequency transactions and improving flow clarity.
- Improved transaction experience design, contributing to higher completion rates and reduced user errors in payment journeys.
- Partnered with product and engineering to deliver scalable, production-ready solutions, reducing iteration cycles and improving delivery speed.
- Applied AI tools to accelerate research synthesis and generate design variations, increasing design exploration efficiency.

User Experience Design Intern | Human Factors International

May 2023 – July 2023

- Identified 15+ critical usability issues, improving task success rates by 18% through targeted redesigns.
- Re-architected navigation and information hierarchy, reducing user confusion by 30%.
- Delivered structured design recommendations and flows that improved handoff clarity and implementation speed.

Product Design Team Lead | SafeYelli

Jan 2021 – Jan 2023

- Redesigned reporting workflows, increasing successful submissions by 35% and improving data reliability for downstream use.
- Improved user engagement by 40% through research-driven design and iterative enhancements.
- Increased report accuracy by 28% by simplifying input flows and reducing cognitive load.
- Conducted research with 50+ users, translating insights into continuous product improvements across releases.
- Led a team of 4 designers, improving design quality and iteration speed across the platform.

EDUCATION

University of Washington, Seattle

Sep 2025 - Aug 2026

Masters in Human Computer Interaction and Design

Srishti Manipal Institute of Art, Design and Technology

Oct 2020 - Oct 2024

Bachelors of Design in Human Centered Design

SKILLS

Product Design: Interaction Design, Visual Design, Design Systems, End-to-End UX

UX Design: Responsive Design, Information Architecture, Agile & Iterative Design, Product Strategy.

UX Research: Mixed Methods Research, User Research, User Interviews, Usability Testing, A/B Testing, RITE Testing, Heuristic Evaluation, Field Studies, Competitive Analysis, Journey Mapping, Survey Design.

Technical & Analytics: HTML, JavaScript, Google Analytics, MS Excel, Generative AI Integration, Prompt Engineering.

Tools: Figma, Adobe XD, Miro, Framer, p5.js, Typeform, Adobe Photoshop, Keynote, Java, Python.

AI in Design: AI-Assisted Ideation, Research Synthesis, Prototyping
